Accountability***

What is PowerSchool?

*PowerSchool is the Student Information System used by the Park City School District. With your personal id and password, you can check, among other things, your student's grades, homework assignments, comments from teachers, attendance records, and lunch balances. By entering your e-mail address and selecting the appropriate check boxes, you can request that this information be automatically e-mailed to you on a regular schedule.**

****Please do not reply to these automatic e-mails. If you have questions, e-mail the teacher directly.***

User Name: _____

Password: _____

How to Use PowerSchool

To access **PowerSchool**, a web-based application, type the following address into your Internet browser:

<http://powerschool.pcschools.us/public>

It is a good idea to bookmark this location for future use. PowerSchool is also accessible from our District and TMIS websites at:

<http://pcschools.us>
<http://tmis.pcschools.us>

A confidential User ID and Password will be issued to you by the school. **We ask that you do not share this information with anyone, including your student.** Students will be issued their own ID/PW so that they can keep track of their own assignments and scores.

To get your PowerSchool User ID and Password, contact the school office or the counseling office. For security purposes, we will not give login information over the phone, by fax, or via e-mail. You can request your ID/PW in person, or it can be mailed home.

To check grades and assignments once you are logged in, click on the "**Grades and Attendance**" link.

To view assignments, click on the blue number grade under the current Quarter of each class. Teachers often include additional information about an assignment which you can access by clicking on the active (blue) link. If you would like to e-mail your student's teacher, you can do so by clicking the teacher's name in blue.

How to Use the TMIS Website

The Treasure Mountain International School website is full of helpful school information for parents and students. To get to the TMIS website, type the following address into your Internet browser:

<http://tmis.pcschools.us/>

Teacher Pages

The TMIS website includes individual **Teacher Pages** where teachers can post information about their classes, such as classroom policies, assignments, due dates, and contact information. Click on the "**Teacher Pages**" link, then click on the name of the teacher.

If a teacher doesn't have a teacher page, you can still contact that teacher via e-mail. Click on "**E-mail Directory**" and search by the teacher's last name. Or you can call 645-5640 and ask to leave a voice message.

Counseling Page

Another place to find helpful information is the Counseling page. Click on the "**Counseling**" link. Here you will find lots of news and information, including counselor contact information, a list of district-approved Private Tutors, a calendar of counseling events, and Internet Safety Information.
